ARTIST BIO

NAGA

NAGA is a Minneapolis-based bass music DJ delivering high-energy sets built around festival trap, bass house, and forward-thinking electronic music. Drawing inspiration from artists like IsoXO, RL Grime, the Sable Valley roster, Tisoki, and IKU, NAGA blends cinematic intros, explosive drops, and aggressive edits into fast-paced performances designed to keep crowds moving from start to finish.

With a growing focus on live performance, NAGA has already begun making appearances at private events, house parties, and local showcases, including CHRIN! Takeover. Every set is crafted to feel immersive and unpredictable, balancing heavy festival moments with melodic tension and clean technical mixing.

Backed by a distinctive visual identity inspired by the Khmer Naga serpent, NAGA is building a project centered around energy, mystery, and memorable live experiences while expanding throughout the Minneapolis bass music scene.
